Project Experience

● **Pharmacy Management System**

This application is used for medical prescription purposes. The facilities of this application are user registration, user login, and uploading prescriptions. A pharmacy admin can view uploaded prescriptions. The pharmacy admin can prepare quotations for the uploaded prescriptions and send the prepared quotation to the user. (Quotation should be displayed in the user account). The user can accept or reject the quotation. The system will notify the pharmacy about the user's accepted or rejected status.

Technologies:
Laravel, HTML 5, CSS, Bootstrap, Ajax, MySQL

Source Code:
https://github.com/AM-ASKY-97/Laravel-Pharmacy-Management-System

● **DIGI-KEYS WEBSITE**

This website is for the Digi-Keys IT Solution website. The admin can use this system to publish website-related information and stay in touch with the Digi-Keys.

Technologies & Plugin:
WordPress, Element, or page builder, contact form 7

● **Web Base of The Particular Institution – Hardy**

This app is used by a particular institution. The facilities of this application include user registration, login, and the ability to download course materials from this app. Also, students can view past papers, model papers, class timetables, and lecture information.

Technologies:
HTML 5, CSS, Bootstrap, PHP, Ajax, jQuery, MySQL
